We are committed to giving you transparency of our privacy practices and control over your data in connection with Ubiz Services (as defined in Ubiz Terms Of Service).

This Privacy Policy covers Ubiz treatment of personally identifiable information ("Personal Information") and other data that Ubiz gathers when you are accessing Ubiz Services. The Services are not available to individuals who are younger than 18 years old.

### Personal Information

- **Personal Information You Provide to Us:** We receive and store any information you enter on our Services or provide to us in any other way. The types of Personal Information collected may include your name, email address, phone number, birthday, Twitter and/or Facebook usernames, use information regarding your use of our Services, and browser information. We automatically receive your location when you use the Services. We use various technologies to determine location, such as location services of the applicable operating system or browser and sensor data from your device that may, for example, provide information on nearby Wi-Fi access points and cell towers. The Personal Information you provide is used for such purposes as allowing you to set up a user account and profile that can be used to interact with other users through the Services, improving the content of the Services, customizing the advertising and content you and your friends see (including Ubiz or third-party advertising or content), and communicating with you about specials and new features. Your Services account will be associated with your email (and optionally a phone number) and this account will be used for all our Services that you use. Information you provide to one of our Services may be used with other Services you or your friends use. For example, location information we receive in connection with your use of one of our apps may be used to customize the content you and your friends see in another of our apps. We may also draw upon this Personal Information in order to adapt the Services of our community to your needs, to research the effectiveness of our network and Services, and to develop new tools for the community.
- **Information Collected Automatically:** When you use the Services, Ubiz automatically receives and records information on our server logs from your browser or mobile platform, including your location, IP address, browser type, operating information, mobile carrier, device and application IDs, cookie information, and the page you requested. We treat this data as non-Personal Information, except where we are required to do otherwise under applicable law. Unless otherwise stated in this Privacy Policy, Ubiz only uses this data in aggregate form. We may provide aggregate information to our partners about how our users, collectively, use our Services, so that our partners may also understand how often people use their services and our Services.

Personal Information about our users is an integral part of our business. We neither rent nor sell your Personal Information to anyone, though, your publicly-available information is available to third parties, and we may provide it to third parties, by license or otherwise. Together with information on how to change the default user settings or how to generally remove information, where applicable. Individuals reading this information may use it or disclose it to other individuals or entities without our control and without your knowledge. We therefore urge you to think carefully about including any specific information you may deem private in comments, plans or tips or other content (location or otherwise) that you create in the Services.
- **Businesses, Locations, Events and Brands:** One of the key purposes of the Services is to help users learn about businesses, locations, events and brands (for example, a TV show, a TV personality, newspaper or a consumer good that manages a page on the Service) that are relevant to them, and for these entities to provide information about themselves, their locations and events to users, as well as to reward users when they visit their location or event through offers and specials. When you check-in to a particular location that is a 'claimed location' your check-ins are shared with that location in order for it to better provide services to you. Additionally, brands may have access to aggregated and anonymous data, such as de-identified check-in data (that is, not tied to individual users) of users that like their brand.
- **Publicly Available Information, the Ubiz API, and Apps:** When you use the Services, certain information is public, such as your public user profile information, tips, likes, public photos, lists that you create and lists of friends, and may be searchable by search engines and be shared with or disclosed to third parties, including through our API to a wide range of users and services. We may also share or disclose aggregated and anonymous data, such as de-identified check-in data (that is, not tied to individual users), to third parties, including users of our API, for analytical or other purposes.

You should review the policies of third party apps and websites to ensure that you are comfortable with the ways in which they use and disclose the information you share with them. Our agents do not have any right to use Personal Information we share with them beyond what is necessary to assist us, and they provide a comparable level of protection for your Personal Information.

## Determining and Sharing Location

**Determining your location** - The Services deal with location, so in order to work, the Services need to know your location. Whenever you open and use/interact with our apps on your mobile device or go to one of our Sites, we use the location information from your mobile device or browser (e.g., latitude and longitude) to tailor the Services experience to your current location (i.e., we'll show you a list of nearby locations, friends and tips). This information is NOT shared with others. Also, the Services use your mobile device's 'background location' to provide the Services, including to send you notifications of tips/friends/plans/interesting things etc. near you. If you have 'background location' turned on, the Ubiz app will, from time to time, tell us about your device's location even if you are not directly interacting with the application.

**Sharing Location with the Ubiz app** - Your location data is ONLY shared with others when you proactively decide to “Log in” on the Ubiz app to tell the Services you’re at a particular place. The location information shared with a “Log in” is the location information of that place.

**Sharing Location with Ubiz app** - By default, neighborhood sharing is turned on and your location data, at a neighborhood level, is shared with your Ubiz friends and is updated from time to time using your background location.
